

# BCL STUDIOS

## audio transfer services

An exact transfer like for like from your Mini Disc master to CD.

BCL studios use only state of art high end Denon Mini Disc players and recorders to get the very best from your original Mini Disc master.

Our Mini Disc machines are constantly cleaned and checked before each transfer takes place. We listen to the entire content of your supplied Mini Disc master before transferring to a master ready red-book standard audio CD. Mini Disc to CD is an exact digital replica service with nothing added and nothing taken away or altered in any manner whatsoever.

Once we have the completed master files on CD, we can also supply these files in all other audio formats, please ask about these services.

transfer  
from mini disc  
to master CD  
£20  
per hour
