### **BECOME PART OF THE NEW MUSIC REVOLUTION**

Magazine is a radio programme dedicated to your new music, your success is also our success. To constantly fund all the deals and negotiating with major suppliers, we have to constantly strive and move forward with ideas and ways of funding our work to keep the radio programme on the air. Our marketing is second to none, we produce regular mailers, flyers, brochures and press & media information to enable us to be in contact with new labels, management and promoters of new music. And all this costs... New music is our passion and our aim is to see new music being launched around the world.
