The one man show traces John's humble beginnings from a small mining town in the north of England, to the heady heights of Hollywood - working with movie stars and icons of the film and music industry. Set against a backdrop of movie footage and a "who's who" photo gallery, John takes the audience on an inspiring journey, sharing anecdotes and tales of a northern lad clawing his way out of the working man's clubs in search of a dream. Sharing the stages of Madison Square Garden and stadia of America, with Tina Turner, Celine Dion, Bryan Adams and a host of others. This funny, entertaining and thought provoking show is punctuated with acoustic and brand new arrangements of his compositions from Blockbuster movies like "Three Men & A Baby", "American Anthem", Shwartzenneger's "The Running Man" and of course his U.S. number 1 hit "St Elmo's Fire" (Man in Motion) written for wheelchair athlete Rick Hansen who went on to wheel 25,000 miles around the globe to raise awareness and \$185,000,000 for spinal research.
